AI AUTOMATION & AGENT OPERATIONS

AI-assisted builder and operator using Hermes, OpenClaw and coding agents to turn practical requirements into working applications and workflows. Identify failures through hands-on use, direct detailed investigation and implementation, and verify the result. Bilingual English–Korean background in translation, interpreting and education.

CORE CAPABILITIES

Workflow design • Agent configuration and context • Defect reproduction • Iterative troubleshooting
AI-assisted implementation • API and saved-state verification • Repeatable operating procedures

Project environments (AI-assisted): Python; JavaScript/Node.js; PostgreSQL; REST/JSON; OAuth; Linux/SSH; browser automation; Google Sheets/Drive; MCP.

SELECTED AI & AUTOMATION PROJECTS | 2026

Luxid — AI messenger and workflow application
Independent project | Product direction, agent-assisted development and operation

- Connected model APIs, long-term memory, browser research and voice/image workflows. Used coding agents to resolve upload, media-processing and live-delivery failures.
- Directed durable reply handling and duplicate prevention; verified repeated requests, database-restart recovery and user-visible delivery through API, PostgreSQL and browser checks.

Lincoln School — teaching and administration automation
Workplace workflows

- Turned lesson plans and teaching-history rules into scheduled Python/Google Sheets workflows, with class-specific exceptions, restricted cell updates and read-back checks.

Haejo — AI automation-assessment web app
Independent project

- Directed fixes for a UI/API recommendation-count mismatch and a Linux proxy outage; checked deployed output and public service recovery.

Assignment Planner — scheduling and document automation
Volunteer operations project

- Connected role-aware recommendations and duplicate warnings to Excel; verified 16 official PDF/PNG pairs with zero source-to-form field mismatches.

PROFESSIONAL BACKGROUND

Freelance translation — selected client projects, 2017–2023
100+ Flitto projects across medical, technical and other subjects; recorded rating 4.9/5.

Dispensary Assistant | Cheongju Correctional Institution Medical Clinic | 2024–2025
English Instructor | Sisa English A&S | Jun 2020–Mar 2021
Translator & Interpreter | ERS Asia | Oct 2018–Dec 2019

EDUCATION & LANGUAGES

Korea National University of Arts — Cultural Criticism | Graduated Sep 2019
English and Korean — bilingual
